Data

LeBron James was 1 of 16
last season in the final 10
seconds with a chance
to tie or take the lead

Qualifier

So, more than likely

Claim

Lebron James
is not clutch.

Warrant

A players performance
in the final seconds usually
determines if that player
is clutch or not

Backing

Players known for being
clutch perform at a high
level when the game is
on the line

Rebuttal

Unless, being 'clutch' is
determined by
other factors
